

SWIMMING AT SALMON BROOK PARK

Salmon Brook Park Swimming Facility is a man-made pond fed by a deep well and springs in the pond bottom. The Pond has a sandy beach & bottom with a gradual decent, ideal for young children. All SBP staff is trained in BLS/CPR & First Aid, meets OSHA requirements and received intensive in-house training. Water quality is tested periodically by the Farmington Valley Health District and the Pond is treated for algae periodically as need during the swim season. Food, beverages, and smoking are not allowed on the beach or in the locker rooms. For the health and safety of all our patrons, babies and young children who normally wear diapers, must wear swim diapers in the pond.

RECREATIONAL SWIM

SBP Pond will open
Thursday, June 16th
for the Season

Daily Hours

Mon-Wed 10:30-4:00PM
